What Participants Say

Heal Your Life ® Training is Intensely touching, Insightful, healing & transformational!! The ambience was so safe, it enabled me to connect with myself and recognise that the depth within is limitless. It was the best week of my life...and that was just the beginning. Having undergone the HYL workshop leader certification put an end to the incessant search within me for the purpose of my life!! Although I am very grateful to my corporate job of 27 years in top management, the depths of joy and satisfaction, the experience of sharing the Heal Your Life work brings, is incomparable.

- Poornima Hinduja.

Babbu Ji has played a very very important role in my growth and transformation, she very gracefully holds sacred space and acts as a catalyst for one to transform themselves from a caterpillar to a butterfly. She is very loving, caring, nurturing and non judgemental in her approach and makes learning fun and easy. I would highly recommend her workshops, coaching sessions, workshop leader and coach training's to everyone who would want to discover their true selves and heal themselves.

- Amitabh Bhatia

Heal Your Life ® Teacher Training is a game changer. I had joined the training with no particular agenda. I am a fulfilled physician, quite left brained and was skeptical about the kind of investment of time and money. However, I was blown away by the transformation I experienced in my personal life as well as how effectively I can carry this work of love to the world and benefit monetarily as well. This is the perfect blend of self growth, training to lead the sessions and marketing oneself effortlessly. Every aspect was covered with so much sensitivity and detail. About Babbuji, she is an ocean of love. Her personal life is such an inspiration and her presence speaks volumes about the power of Self Love. The HYL community and the teacher teachers are so supportive with on going events, it feels like a family here. We need more teachers to carry this profound work forward and what better way to grow our prosperity helping others find theirs.

Louise L. Hay

**Queen of the New Age...
A Founder of the Self-Help Movement...
The Closest Thing to a Living Saint...**

Louise Hay was called this, yet she never set herself up as a guru knowing all the answers. She urged every attendee in her workshop and seminars and every reader of her dozens of books, to remember that it is YOU who has the power to heal your life.

As an icon in the self-help movement her simple yet powerful teachings and techniques have transformed millions of lives. In the Heal Your Life workshops and trainings participants learn how to let go of limiting beliefs to transform and live a life of their dreams.

Louise said:

"Trust the process of Life. Very simply, I believe that what we give out, we get back; we all contribute to, and are responsible for, the events that take place in our lives-both the good and the so called bad. We create our experiences based on the words we say and the thoughts we think. When we create peace and harmony in our minds and think positive thoughts, we will attract positive experiences and likeminded people to us. In essence, what I am saying is that what we believe about ourselves and about life becomes true for us."
